#### **8. STARTING POSITIONS**

All team numbers will be randomly drawn out of a hat on a first come first serve basis during registration. The number drawn will be valid for the duration of the tournament.

No contestant may be on tournament waters for the purpose of locating fish or testing boats or equipment or be on potential fishing waters after the opening of registration except during tournament hours.

Each day there will be four flights and starting positions during each flight will be according team numbers. Every registered team must collect their corresponding boat flag number for display when boats are lining up for the start. Skippers must separate themselves on the water and each co-angler must display his team's starting number so that all skippers can arrange themselves for a single boat start. Teams will only be allowed to set off once the team number is called and a GREEN flag has been raised. No team may set off whilst the RED flag is raised. Teams failing to comply with the starting procedure will be disqualified immediately and no tournament entry fees will be refunded. When a team's number is called out, the team must idle out and is only allowed to go on the plane from the point the organiser has appointed.

There will be only one official checkpoint for boat check in the morning and one official check-in point in the afternoon. Failure to go through boat check in and checkout in the morning or failure to check-in at the check-in point will result in disqualification.

#### **9. BOAT & HORSEPOWER REGULATION**

All boats participating must be fitted with a minimum of 30hp (thirty horsepower) outboard engine, must be propeller driven and be a minimum of three meter (10ft) in length. No kayaks or jet skis will be permitted. Each boat must have all required safety equipment and must be equipped to keep bass alive through the use of a properly aerated live-well of some sort. All vessels should be equipped with an emergency ignition shut-off device that should be securely attached to the driver's body whenever the combustion engine is in operation.

The use of generators, other than solar or wind-powered generators, is prohibited in contestant boats during tournament hours on all competition days.

#### **10. BOAT OPERATION & EQUIPMENT FAILURE**

Contestants must leave and return to the official checkpoint by boat. In the event of equipment failure or emergency, there will be only two permitted methods of returning to the official check-in:

(1) by both partners remaining in their boat and being towed, or

(2) by one partner boarding the boat of another tournament contestant with their entire catch kept separate in a weigh bag. Under these two conditions the contestant's catches may be counted without a penalty (except for late penalties or dead-fish penalties. **Note:** *Equipment failure does not allow for flat batteries, or running out of fuel*). Contestants who elect to return to the official check-in by any other means than cited above will forfeit their day's catch. A 100 meter radius from the weigh station must be treated as a no-wake zone.

Boats are not allowed to beach directly at the release point. There is a "No Fishing Zone" directly at the weigh station as indicated by the tournament organiser. Teams who do not comply will be disqualified. Tournament officials reserve the right to board any participating boat before, during or after the tournament.

#### 11. **LIVE FISH**

The MLF RSA Shoot Out is a catch, weigh and release event. Every effort must be made to keep bass alive through the use of a properly aerated live-well of some sort. The tournament proprietor and all its sponsors recommend the use of live-well additives that promote the healthy return of bass to their natural habitat. (No stringers, keep nets or fish nets are allowed).

Any fish presented to the weigh master with a white circle in the eye or a fish, or obviously dead, or a fish that is not gilling or finning within (10) ten seconds on a wet towel in the shade; will be regarded as "dead" and will not be weighed.

#### 12. **PERMITTED FISHING METHODS**

Any team can only start to fish after they have gone through the starting gate. Fishing is defined as having a lure attached to a line and a rod and reel with the rod in hand. All bass must be caught alive in a conventional sporting manner. All fishing must be conducted from the boat and only artificial lures may be used, with the exception of pork trailers and biodegradable soft baits. Only one wet rod with one main line and one lure / bait per angler at any given time is allowed. The rod must be hand held (no rod holder may be used). Rigs like the double rig where multiple lures / baits are attached to one main line are not allowed, except for commercial available "Alabama" rigs. Trolling as a method of fishing is strictly prohibited. Trolling is defined as operating the combustion engine or using the trolling motor to extend a cast or lengthen a retrieve. All bass caught must be hooked inside the mouth. Creating feeding spots by dumping bait either artificial or natural, or any other attractant in order to attract fish to a specific location is prohibited. Tournament ethics, courtesy and good conduct are unwritten "golden rules" and core responsibilities of all anglers on all levels.

#### 13. **PERMITTED FISHING LOCATIONS**

Contestants may fish anywhere on tournament waters available to the public and accessible by boat, except areas designated as "off limits" or "no fishing" by local or provincial officials or within 45 metre of a competitor's boat.

Non-contestants (and/or spectators on boats) are also not allowed within 45 metres from a contestant's boat. At no time may a contestant leave the boat to land a fish or to make the boat more accessible to fishing waters. The cutting of trees, bushes and/or logs after the start of registration to make an area more accessible by boat is strictly prohibited and may result in disqualification from the tournament.

#### 14. **CHECK-IN**

All tags must be returned and be back at the weigh station, on the tag board before the cut off time for the particular flight. Even though a team's bag could have been weighed but their tag is not on the board at the time, the team will be deemed late and their catch for the day will be disqualified. Any team who is late solely due to them rendering emergency assistance to another team may, at the discretion of the tournament organiser, have their catch weighed if they provide satisfactory proof of such assistance given.

#### 15. **LIMITS**

All live-wells must be empty prior to commencement of any fishing session. The daily limit is FIVE fish per boat and each team may not have more than the daily limit in their possession at any time during official event hours. Anglers found possessing more than the tournament limit per team per day will be disqualified. There is no minimum size limit on bass to be weighed.

#### 16. **WEIGH-IN**

The weigh-station will be open through the day, but once the flights start to come in - then only teams in that particular

flight may weigh their fish. No culling at the weigh station will be allowed.

All fish to be weighed have to be brought to the scale within a suitable weigh bag filled with adequate water. Any fish brought lip-landed to the scale will NOT be weighed!

Only a team member may handle his team's catch to be weighed and presented for scoring by a tournament official. No angler may allow any fish caught by him to be added to the score of any other team. In such an event both teams shall be disqualified and subject to disciplinary procedures. Each team's catch must be verified by the signature of a team member. Failure to have a verified signature may result in disqualification of that day's catch. The team's boat flag must be weighed along with their fish. Weight will be measured in kilogram.

Any fish weighed before the weigh-in time will be noted on the team's score card and once it has been noted it cannot be removed for any reason whatsoever. Winners are determined by the heaviest cumulative weight from days 1, 2, and 3.

- If any team or team member receives more than one complaint, the team (or team member) will be disqualified for the rest of the series.
